PROJECT MANAGER

The Company	STC is a defense contractor that designs and builds aftermarket products for the US Government and leading aerospace/defense firms. We are an entrepreneurial organization with a collaborative culture, and provide maximum opportunity for employees to develop and grow. STC is based in Torrance, CA.
	STC is part of AMS Group, a cohesive group of companies focused on military aftermarket and logistics support, for both US and international defense and security customers.

Position Description

The Project Manager oversees production and supply chain activities for a range of aerospace/defense products. Key responsibilities include:

- Determine project schedule, budget, build plan and supplier selection
- Execute multiple concurrent projects, coordinating with teams in Sales, Finance, Production, Engineering and Quality to ensure targets are met
- Communicate with customers, and provide updates on project status
- Identify and implement opportunities for continuous improvement

Requirements

- Three to five years of professional experience in a comparable role as Project Manager - preferably in aerospace/defense, aviation, manufacturing or a related field
- Bachelor of Science with strong academic performance in Electrical Engineering, Mechanical Engineering, Industrial Engineering/Operations Research or another engineering field
- Candidates should be strongly proactive, problem-solvers, analytical and have excellent communication skills (oral and written). Proficiency in Project Management Software (MSP, Asana), as well as Excel.
- <u>Must be a US Citizen or Permanent Resident</u>

Compensation & Benefits

- Competitive Salary and Bonus/Profit Sharing Plan
- Hybrid Work Environment
- Health insurance (HSA, PPO and HMO options)
- 401(k) Retirement plan
- Paid Time Off
